

Dear workshop participant,

Thank you for registering in the workshop at Dietitians Australia Conference 2022 'Be Bold' **Environmental Sustainability and planetary health – enhancing dietitian's motivation, capability, and opportunity to lead transformative change to be held Sunday 14th of August 2022.**

Dr Kristen MacKenzie-Shalders on behalf of the Food and Environment Interest Group and the workshop team have recommended that you peruse the following resources for your professional development and in preparation for the workshop. When perusing the toolkits, we ask you to consider which elements of the toolkits you find valuable as a dietitian or student dietitian.

- Dietitians Australia Position on Healthy and Sustainable Diets
<https://dietitiansaustralia.org.au/advocacy-and-policy/position-statements/healthy-and-sustainable-diets-position-statement-and-briefing-paper-2022>
- Dietitians Australia Food Systems and Environmental Sustainability Role Statement 2019
<https://dietitiansaustralia.org.au/sites/default/files/2022-02/Food-Systems-Sustainability-Role-Statement-2019.2.pdf>
- International Toolkit: ICDA sustainability toolkit <https://icdasustainability.org/>
- International Toolkit: One Blue Dot <https://www.bda.uk.com/resource/one-blue-dot.html>
- International Toolkit: Sustainable Food Systems Primer for RDNS and NDTRs
<https://www.eatrightfoundation.org/resources/future-of-food/sustainable-food-systems-primer-for-rdns-and-ndtrs>

In preparation for the workshop, we ask that you please complete the preparatory survey. The survey can be found here https://bond.qualtrics.com/jfe/form/SV_cIU7k1epDI8ktKe and will take approximately 15 – 20 minutes to complete.

Please be aware non-identifiable research data will be collected from the survey and the workshop, in the form of written outputs from workshops i.e., whiteboard activities, task sheets and research assistant written notes for textual analysis. No voice, identifiable photo or video recording will be undertaken for research purposes. This is designed to increase our sphere of influence and inform our broader profession through research outputs that will inform national and international dietetic practice on sustainability. Participating in the research is low risk and voluntary. If you do begin the survey or workshop and do not wish to complete it, you may withdraw at any time. Further consent information will be available on the survey and on the day, or you can contact Dr Kristen MacKenzie-Shalders for further information.

Please note that we will send a reminder email a few days prior to the conference.

Thank you for registering for our workshop and taking a step towards our planetary health. We look forward to seeing you there! We hope you enjoy the toolkits and the discussion with like-minded professionals in a few weeks' time.

Regards

Dr Kristen MacKenzie-Shalders PhD. APD (she/hers).
